Dear Mr. Macleod:

This is to inform you that the Ohio EPA is conducting inspections of those facilities which generate and/or treat, store, or dispose of hazardous waste. These inspections are being done in conjunction with a cooperative arrangement with the U.S. EPA, Region V Office in Chicago. The purpose of these inspections is to ensure compliance with the Interim Status Standards for hazardous waste facilities (re: Federal Register May 19, 1980, and amendments thereto). The applicable sections of these regulations and a brief outline of their scope is listed below:

<u>Section</u>	<u>Description</u>	<u>Location in FR 5/19/80</u>
40 CFR, Part 262	Standards of generators of hazardous waste - Manifest requirements - Pre-Transport Requirements - Recordkeeping and reporting	pp. 33142 thru 33147
<u>NOTE:</u> Short-term storage for 90 days or less in tanks and containers also requires that regulations in Section 265, Subparts C & D, (Preparedness and Prevention plus Contingency and Emergency) be met.		
40 CFR, Part 265	INTERIM STATUS STANDARDS for owners and operators of hazardous waste treatment, storage and disposal facilities	pp. 33232 thru 33258
Subpart B	General Facility Standards	pp. 33233 thru 33236
Subpart C	Preparedness and Prevention	pp. 33236 thru 33237
Subpart D	Contingency Plan and Emergency Procedures	pp. 33237 thru 33238

NOTE: Numerous Amendments to these regulations have been promulgated. Please contact the Ohio EPA, Northwest District Office (419-352-8461) for further information.

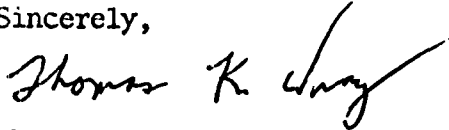

I recognize that this information is repetitious for many; however, it is included here for those who are not familiar with these regulations and the Amendments thereto.

As mentioned earlier, the Ohio EPA is conducting inspections of those facilities engaged in the generation, transportation, storage, or disposal of hazardous waste. Your company has identified itself as a TSDF (Treatment and Storage or Disposal Facility). Therefore, an inspection has been tentatively scheduled sometime during the next four months. I will contact you approximately a week before the inspection and arrange a definite time.

For your benefit, I suggest you ensure your facility is in compliance with the applicable portions of these regulations as non-compliance will result in a notice of violation and a possible fine.

Sincerely,
